HAND-BUILT QUALITY + OUTSTANDING CUSTOMER SERVICE

=

THE PERFECT PRODUCT

For over 45 years, Pacific Outdoor Products has been committed to designing, engineering, and manufacturing state of the art playground equipment, outdoor fitness equipment, dog park equipment, and site furnishings. All our products are proudly made in the USA and manufactured in Maple Valley, Washington. Pacific Outdoor Products offers pride of workmanship, innovative design, and superior customer service; resulting in the highest quality products and user experience.

PLAYGROUND EQUIPMENT

All our commercial playground equipment is manufactured using 4×6, 6×6 and 5/4×6 recycled HDPE plastic. Created by our in-house design team, these completely modular playgrounds can be custom designed to fit any budget, area, and age group! Pacific Outdoor Products provides playsets that are packed full of traditional physical activities that challenge children's abilities, build strength, improve coordination, enhance balance, and promote cardiovascular heart-healthy exercise along with social interaction. Your Poly Playsystem will challenge children to master different climbing activities and overhead tasks; building muscle strength and endurance all the while appealing to a child's imagination!

HAND MADE TO ORDER BY EXPERT CRAFTSMAN

"Hand Made to Order" manufacturing means each order is hand-built when the order is placed! No assembly line production or imported products; all components are made in the USA from the finest materials. This guarantees our equipment is built right the first time and that parts will always be available. Every piece of equipment is double-checked and hand-welded out of the heaviest and strongest materials for a custom fit. As a customer, you should expect, and will receive, nothing less. Look through our catalog and imagine the possibilities. Let Pacific Outdoor Products turn your vision into reality!

EVERYTHING CAN BE CUSTOMIZED... TO FIT YOUR BUDGET AND AGE GROUP!

Poly Playsystems is the most modular playground system available. You will not find a more design friendly playground than Poly Playsystems. Your Poly Playsystem will be easy to install, as all holes are predrilled and countersunk for safety and all components and parts are included and ready for assembly. Just contact us, and we will design a playset that will fit your budget, age group, and area. Your playset will be a sound investment and a permanent component to your playground as it will never need to be replaced.

FAMILY OWNED
SINCE 1980

Poly Playsystems is the only recycled product available that uses a pre-drilled bolt-thru fastening system, rather than a weaker lag-bolt system. The result is the strongest recycled playset on the market. All vertical supports and attached activities are designed and engineered for optimal strength. Virtually maintenance free and graffiti resistant, Poly Playsystems is simply the best choice for your Playground needs.

PLAY GREEN!

MADE FROM **100%** RECYCLED PLASTIC

Recycled milk cartons were used to create this play structure

THE BENEFITS OF PLASTIC LUMBER:

- 100% Waterproof
- Will not rot, splinter, corrode, mold or decay.
- UV-resistant- retains its color and luster for years.
- Economic benefits – low maintenance.
- Resistant to most chemical exposures
- Requires no painting or sealing.
- Graffiti resistant – cleans right up.
- Anti-Insect – termites and other insects won't find a home in your playset
- Will not rust, splinter, crack, or chip like steel or wood.
- Environmentally friendly, made from recycled materials.
- Greater impact resistance than wood.

SITE FURNISHINGS

For over 45 years, Pacific Outdoor Products has been manufacturing a wide variety of heavy-duty outdoor site furnishings. The equipment includes all steel hand-welded, hand-fitted tables, benches, trash receptacles and bike racks, or choose our heavy duty or super duty welded steel frames with HDPE recycled plastic tops and seats.

The recycled plastic table frames are engineered so the poly tops and seats will not warp or sag. The site furnishings are all hand fitted, welded and powder coated to assure a consistent quality that will perform for years to come. They are all available for surface mount or in-ground installation, custom colors are available.

STEEL TABLES

SE-5320

STEEL FOUR-SIDED TABLE

Contemporary 4 seat steel strap table. The ADA version includes three seats to accommodate wheelchair access. Finish is powder coated. Surface or in-ground mount.

Installation Type:

In-Ground Mount, Surface Mount

Finish Type:

Powder Coat

SE-5325

6FT STEEL TABLE

Contemporary 2 seat steel strap table. The ADA version includes a longer top to accommodate wheelchair access. Finish is powder coated. Surface or in-ground mount.

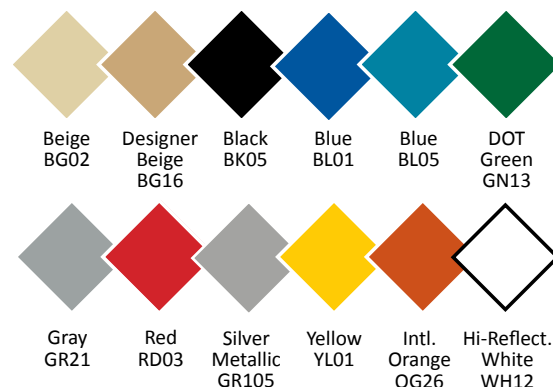

Installation Type:

In-Ground Mount, Surface Mount

Finish Type:

Powder Coat

STAYFIT BODYWEIGHT+ OUTDOOR FITNESS EQUIPMENT

StayFIT Systems outdoor/indoor bodyweight fitness equipment offers a wide selection of standard fitness designs. They can be installed outdoors or indoors in almost any setting. StayFIT equipment is perfect for any application; schools and universities, fitness centers and athletic clubs, apartments, parks, corporate centers, residential settings and much more. If a standard StayFIT design doesn't fit your needs we can quickly design a custom set that will.

WHY BODYWEIGHT FITNESS EQUIPMENT?

StayFIT is the most modular line of fitness equipment on the market today. StayFIT features over 40 different fitness activities that can be incorporated into an unlimited number of standard or custom designs. Every order is custom built by our factory craftsman using the highest quality materials. Every piece of equipment is built and inspected for quality assurance in our plant in Maple Valley Washington.

StayFIT offers the best warranty in the fitness industry! Check out the competition and see if they even come close to our 25-year warranty. StayFIT is a division of Pacific Outdoor Products; manufacturing the finest outdoor playground equipment, fitness equipment, and site furnishings since 1980.

ExerTRAC fitness trail equipment is designed to be the most modular fitness trail equipment available. Your new ExerTRAC fitness equipment will be built using the highest quality materials. Every part is custom made for your order by our expert craftsman; just as it has been done since 1980. As a result, we can offer the best warranty in the fitness industry; a full 25 years!

ExerTRAC has over 40 different bodyweight exercise stations recommended for those aged 13 years and up. Because ExerTRAC has no moving parts it is almost maintenance free, simple to install, and can be designed to fit nearly any budget.

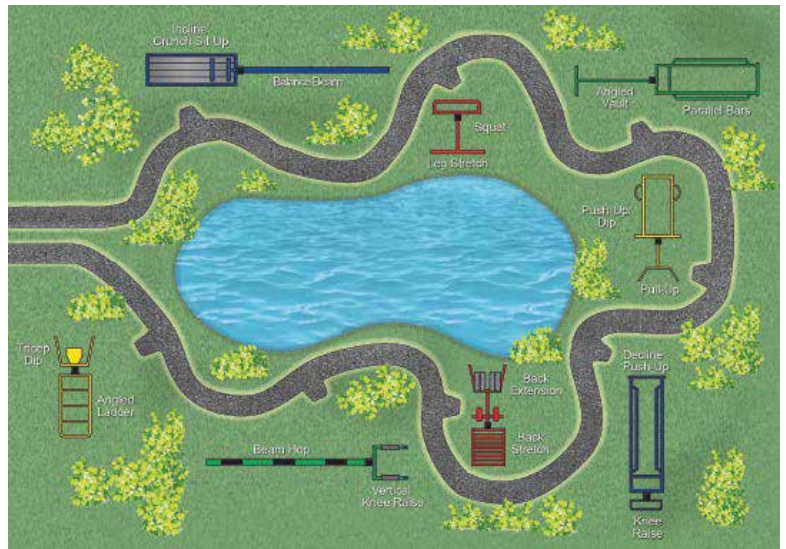

DESIGN YOUR OWN CUSTOM EXERTRAC SYSTEM

StayFIT outdoor fitness equipment is built to order so you have the option of having us design the perfect fitness set or stations to fit your space, budget and needs at no extra cost!

This is all we need to create your perfect outdoor fitness center.

- The fitness stations you would like.
- The size of the space for the equipment.
- Choice of any 2 of the 12 standard colors.
- Will it be installed in-ground or surface mount on a concrete slab.
- Project budget.

ExerCOURT fitness equipment is designed for tennis courts, multi-use courts and backyard game courts.

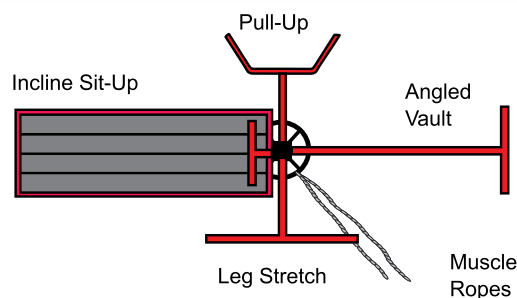

ExerCOURT can transform any commercial or residential court into an outdoor fitness center. If you just want to provide a simple “warm-up” station or a full-blown bodyweight training area we can design the equipment to suit your needs. This is the simplest way to have your own personal gym in your backyard. We offer over 30 different bodyweight exercise stations to choose from! Sit-ups, push-ups (normal, wide and decline), parallel bars, knee raises, triceps dips, muscle ropes, TRX attachments just to name a few. Everything is commercial quality and hand made in the USA by our in-house craftsman.

STAYFIT SENIOR

Aging is not an excuse to avoid exercise! The older people become the more important it is to have a regular exercise routine. A good exercise program helps maintain flexibility, strength, energy, endurance, improve overall health and reduce the risk of health related problems that increase with aging.

Past the age of 35, muscle loss of up to 5% occurs with each decade. Regular exercise can greatly improve both health and longevity! The Center for Disease control states that “regular physical activity is one of the most important things older adults can do for their health”. Physical activity can also help reduce the risk of falls, which are a significant health concern in older adults.

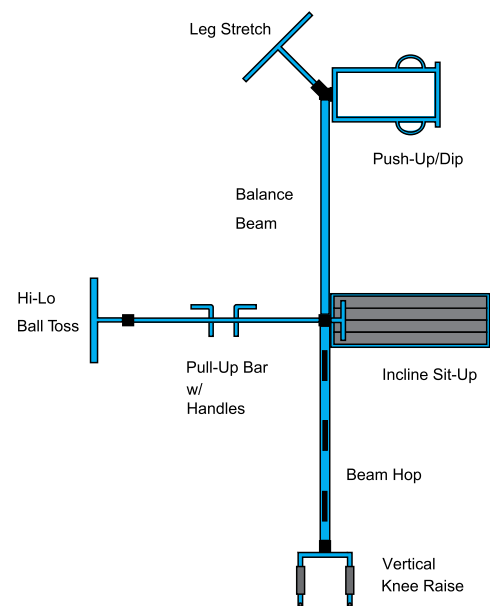

There are 4 types of exercise: Flexibility, Strength, Endurance, and Balance. StayFIT outdoor fitness equipment is designed to provide all four types of exercise.

SuperMAX 2.5

Tamper Resistant Hardware

SuperMAX correctional facility and prison exercise equipment is the most “Inmate” resistant equipment on the market. No light gauge steel is used in SuperMAX equipment. The structure is hand-welded using the strongest materials; schedule 40 tube and 3/16” to 3/8” thick flat and square carbon steel. It is simply the toughest prison equipment built, and with our 25 year coverage, has the best warranty in its field.

SuperMAX Outdoor/indoor fitness equipment is strictly bodyweight equipment and requires no moving parts, cables, weights, pulleys or other components which could sustain damage or need replacement. Everything is hand-welded, pre-drilled, and then bolted together using heavy-duty tamper resistant hardware, making a perfect fit for prison exercise equipment.

SUPERMAX

SuperMAX Individual Fitness Stations

SuperMAX bodyweight fitness equipment is hand made in the USA and designed specifically for use in almost any environment! SuperMAX is the perfect fitness addition for prisons, correctional facilities, military installations, police departments, fire departments, or any application where only the toughest and heaviest duty equipment will work.

Manufactured with oversized steel components, thicker wall sizes, hand welded, powder coated and all stainless steel hardware (tamper resistant hardware is available). SuperMAX has no moving parts for minimal maintenance and our 25-year warranty makes it the best product for your existing or new workout facility.

Individual Stations & Custom Design

SuperMAX individual stations can be purchased as a single unit, in groups, or they can be linked together to accommodate multiple users at one time. The photos below show the available SuperMAX stations you can mix or match to create the perfect outdoor fitness area. SuperMAX can also be designed in phases so you can easily add on to them as your space and budget allows.

Back extension & pull-up

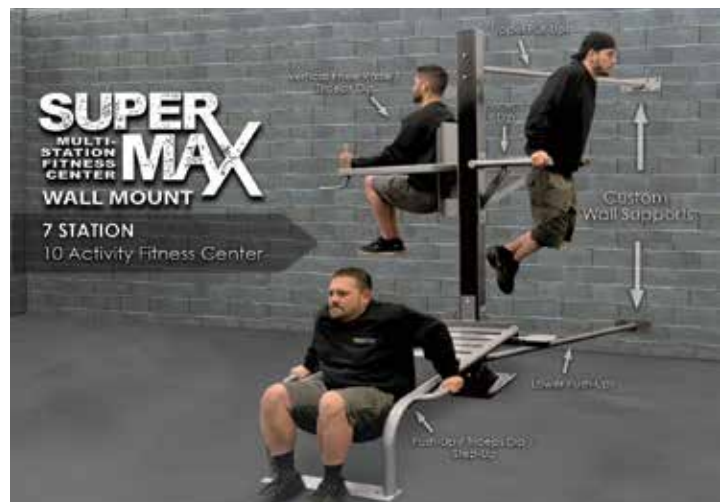

Incline sit-up & crunch sit-up

Wall-Mount Stations

In addition to our multi-functional fitness stations, we offer a complete line of individual fitness stations that can be installed as single free-standing units or wall mounted when space is an issue.

SuperMAX Wall Mount Station

SuperMAX wall mounted exercise stations bolt directly to a vertical wall and are compatible with wood, concrete, or block walls. Wall mounted fitness stations conserve floor space and allow more room for other activities and are the perfect solution when limited space is an issue. Stations are easy to install and maintain as they are simply bolted to the wall and can, in addition, be secured to the floor where needed. If you have a limited space for your fitness area SuperMAX wall mount fitness stations are a great choice for your fitness workout area.

Space Saving Fitness Stations

Choose from the fitness stations shown below to design your new workout area. Please keep in mind you must have a solid wall for attachment. All of the stations are manufactured out of heavy gauge steel, welded, and powder coated in any 1 of our 12 standard colors. You will not find better built, stronger, or longer lasting fitness equipment.

Pacific Outdoor Products does not provide any attaching or anchoring hardware for our wall mounted equipment. Anchoring or attaching hardware you will need will depend upon the type of wall the equipment will be mounted to. Common installations will be on a concrete, concrete block, or wood frame wall. The customer will determine the type of wall they will use and provide the hardware required to provide a safe and secure installation.

If you are unsure of the type of attaching hardware you need you should consult a contractor who is skilled in this type of work. You may also need anchoring hardware to attach the ground level stations to the floor.

1 Vertical Knee Raise

2 Triceps Dip

3 Squat

4 Push-Up / Dip / Step-Up

Doggie Playsystems

Dog parks are rapidly becoming the most popular type of park in the USA! There are more than 70–80 million dogs in this country and nearly 45% of families have one or more dogs. This makes dog parks the perfect place for families and their dogs to get together to exercise and to socialize.

Dog parks help bring communities together! More and more communities are becoming pet friendly by building attractive and fun places where families and their pets can exercise and socialize in a healthy outdoor environment promoting confidence and healthy play for their dogs and the owners.

Doggie Playsystems dog park equipment design is based on agility components that promote climbing, crawling, weaving, jumping, as well as bonding between dogs and their owners. Doggie Playsystems products are functional, durable, heavy-duty and made to last a lifetime.

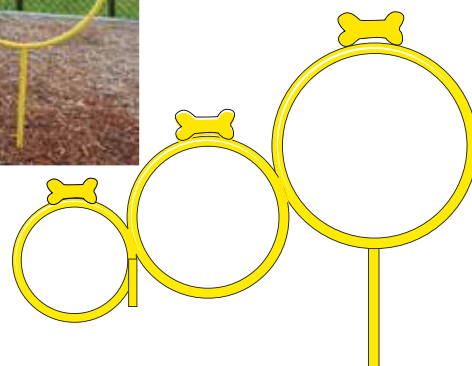

Create a simple dog park play area by combining a few pieces or go with a complete, full-blown turnkey dog park by incorporating all of the available activities. Doggie Playsystems has the equipment to fit most any requirement and budget. All Doggie Playsystems equipment is designed to be sturdy, fun and challenging for all breeds, abilities, sizes and confidence levels.

Doggie Playsystems dog park equipment is designed and engineered to withstand just about every kind of use thrown at it. Since dog parks are usually open to the public, it is very important that the equipment is both strong and durable. The rigid standards applied to the design and manufacturing of Doggie Playsystems equipment are second to none. Not only is it the heaviest duty equipment on the market, it is also the most modular. Doggie Playsystems dog park pieces can be designed to fit into almost any location.

The perfect places for Dog Parks:

- Apartments and condominiums
- Community parks and homeowner associations
- Retirement communities
- City, county and state parks
- Open spaces
- Recreation centers
- Anywhere people and their dogs gather
